MEETING BATTLE Each player must split their army into three contingents. No contingent can consist of more than half the units in an army. Each player sets up one contingent at the start of the battle using the normal rules for set-up. A second contingent arrives at the end of its controller's second movement phase, and the last at the end of its controller's third movement phase. Units in the second and third contingent must be set up more than 9" from the enemy, with all models wholly within 9" of any battlefield edge and outside of enemy territory.		STORM OF MAGIC Add 1 to all casting and unbinding rolls. However, if a casting or unbinding roll results in a double, then the caster suffers a mortal wound after the spell is attempted and its effects (if any) have been resolved. If the roll was a double 1, then the caster suffers D3 mortal wounds instead.		MANY PATHS TO VICTORY Draw an extra Objective card. Both Objective cards are used for the battle. If the players achieve one of the objective each, then the battle is a tie. If both Objective cards require objective markers, ensure you can tell which objective marker relates to which Objective card.
